I'm Soufiane, a web and mobile developer skilled in React.js, React Native, and Laravel. I create responsive, user-friendly interfaces and design secure, scalable backend solutions. With a focus on clean code and best practices, I deliver high-quality applications that exceed expectations.

EXPERIENCE

Full Stack Developer php | CASAKOOL

Internship 2022-2023

Developed an ERP system using PHP to efficiently manage goods and inventory processes. The project involved designing and implementing modules for inventory tracking, order management, and supplier coordination. Key responsibilities included creating user-friendly interfaces, integrating database functionalities for real-time data updates, and ensuring secure and scalable backend operations. The internship provided hands-on experience in optimizing workflows, improving data accuracy, and enhancing overall operational efficiency.

Front End Developer React| KZ LEVAGE

Internship 2024

Built a client and employee management app with React.js, Tailwind CSS, and Firebase. Features included user profiles, activity tracking, and real-time database interactions, ensuring scalability, security, and a seamless user experience
